

Daniel Szerszeń

Senior Frontend Engineer

ABOUT ME

I am 28 years old Polish developer with over 14+ years of experience in programming, creating graphics, websites and web applications. I have successfully delivered products for the biggest and well established brands as Microsoft, Whirlpool, Nespresso, Trek Bikes, Phillips.

I am always willing to learn new thing and technologies and draw conclusions from new experiences. My motto is "If you do what you love, you'll never work a day in your life". It happens that programming is my passion.

Nowadays I mainly create frontend parts of the applications since I am the expert in several frontend technologies as well as I love user experience. In addition I am well skilled in backend and devops technologies so I am able to conduct all types of work starting from designing process, creating solution to delivering as it is required by a client.
